

I respectfully urge the FCC to reject the NAB's petition 04-160. I travel extensively by car and instant local weather and traffic is invaluable. This service is not readily available on local FM or AM stations. I feel that I should have the right to this service if it is available. I also resent the NAB using campaign contributions, lobbyist and political influence to dictate what I may or may not have access to via XM radio. Again I urge you to reject this blatant attempt to stifle competition.
